#### Areas Below Sea Level.

exception of South America, contain areas of dry land which are below sea level.

In North America, according to the United States geological survey, the lowest point is in Death valley, Call- -their wives don't know how. So fornia, 276 feet below sea level, but this is a slight depression compared to the basin of the Dend sea, in Palestine, Asia, where the lowest dry land point is 1,290 feet below sea level. In Africa, the lowest point is in the desert of Sahara, about 150 feet below sea level, but the Sahara as a whole is not below sea level, although until recently the greater part of it was supat present known is on the shores of the Caspian sea, eighty feet below sea level. In Australia the lowest point is at Lake Torrens, twenty-five feet below sea level.

#### disturbances because it is the newest part of the earth's surface," declares M. Peprett of Paris, a French geologist of authority. People, especially those living in the western bemisphere, look upon Europe and all of the eastern hemisphere, in fact, as the "old world," which, taken one way, is right. But in the matter of the formation of

Where the Earth's Crust Is Thinnest.

"Italy is visited by an excessive

number of earthquakes and volcanic

the earth's crust, which geologists now agree is the result of the cooling of the great molten mass that makes our earth, it so happened that the section round about Italy was the last to cool and consequently has not yet cooled to so great a depth as other portions of the world. This, then, makes Italy the newest part of the world's surface, if our geologists are correct in their es-

timation regarding the tardiness in the

cooling of that particular section.

England's "Basket Justices." Centuries ago justice in England was not administered nearly so impartially as it is now. There were the "basket justices," who received their nickname from the presents openly handed up to them in court by suitors. And in more recent times there were the "trading justices," satirized by all or any. Apply to V. B. Hudson or evidence before a parliamentary committee in 1816 described how these poor devils on the streets so as to charge them 2s, 4d, each as ball. Only the penniless offenders were sent to the City of Bryan, viz: gaol, and a morning's work would sometimes produce £10 (\$50)," after which the worthy magistrate and his addition; price, \$700. James W. clerk would adjourn to a neighboring hostelry for refreshment. - London

#### Graphic. "Delicatescen Wives."

luncheon?" asked a prosperous man who was regaling himself at a downtown lunchroom on a glass of milk and ner prescribed for holding other eleca piece of pie.

"Because he has a delicatessen wife," was the reply of his observant companion.

The men who were standing up to prosperous than the men having thirty and thirty-five cent meals at the tables.

"Those bookkeepers and clerks have | State of Texas, shall be entitled to to get substantial meals at noon to keep vote at said election. fit for their work," the man went on to explain. "I employ six of them- City of Bryan, at Bryan, Texas, this All the continents, with the possible one at \$14 and five at \$12 a week. I've inquired about their home arrangements. They all live the same waycoffee and cereal for breakfast, delicatessen stuff for what they call dinner. seldom anything cooked in their homes they have to eat substantial food at noon. A plague on these delicatessen wives!"-New York Mail.

#### The Sawfish.

More energetic than any other sharks are the sawfish, whose snouts are prolonged into a broad blade of cartilage. which is horizontal when the fish is swimming in a normal position and posed to be. In Europe the lowest point has both its edges set with slightly curved teeth about an inch apart. The end of this formidable looking weapon is blunt and comparatively soft, so that it is quite incapable of the feats popularly attributed to it of piercing whales' bodies, ships' timbers, etc. It attacks other fish by a swift lateral thrust of the saw beneath them, the keen edge disemboweling them. Then friend of yours who used to have it feeds upon the soft entrails, which money to burn? Buggins-He's sifting are apparently the only food it can eat from the peculiar shape of its mouth. It has an enormous number of small teeth, sometimes as many as fifty rows in one individual, but they An optimist is a cross eyed man who is are evidently unfit for the rough duthankful that he isn't bowlegged .- ties required of their teeth by the garbage eating members of the family.
